Recommended New Chrysanthemums

MAYOR JAMES A. RHODES

New Mums For 1949

TALISMAN OHIO HYBRID

So named because its color blend is like that of the Talisman rose, fusing tints of cerise, rose and yellow into a harmonious flower. The blooms open about Oct. 1st. are fully double, the center yellow, the outer petals rose and cerise. Being an arctic daisy hybrid it is very hardy.

\$1.00 each; 3 for \$2.50

RAGGEDY ANN OHIO HYBRID

In 1947 and again this fall many mum lovers saw this flower in our test garden and spontaneously named it Raggedy Ann. The flowers are very informal, first opening, double, and a clear pink color, as the buds open, tan appears at the base of each petal and finally the yellow center is exposed. It is a robust plant in bloom by Sept. 20th.

\$1.00 each; 3 for \$2.50

New Mums Introduced In 1948

HOW TO GROW GLADS

For a continuous display of flowers plant a few bulbs every two weeks from Apr. 15th thru July 15th.

In the hardy border it is most effective to plant glads in groups of one variety say 5 to 7 to a group.

Glad Bulbs must be dug and stored in a dry cool place over winter (not allowed to freeze) Put naphthelene flakes in with your bulbs to prevent growth of thrip.

Rocknoll's Giant

This is the year to buy and plant Glad Bulbs. There was a fine crop of bulbs harvested last fall which assures top quality merchandise. Besides this, the prices on all Glads have been greatly reduced. So—enjoy one of the gardens most easily grown flowers more this year.

Young Flowering Shrubs

Raise Your Own Specimens, Easy,

For several years many of our customers have asked us if we now have any of the inexpensive young shrubs, hedge, and shade trees that we sold before the war. Yes, we have them, but because of high labor, packing and transportation costs we have hesitated to put them on the market. However, we are going to try them this spring and will be able to keep our prices down by these methods.

1. Discourage "each" sales of single plants by keeping the price high.

2. Encourage group and quantity sales by greatly reduced prices.

In other words we can pack, label and send you 5 shrubs or trees at practically the same postage, boxing, and packing cost as for one.

TALLY HO

PICTURED ON FRONT COVER

A bright color but the contrast is not great. The color on the inside of the petals is a varying but always a delightful and unique shade of pink. The outside of the petals is a rich Crimson. The buds, before they unfold, are deep Cardinal-Red. The long-stemmed blooms open slowly and last exceedingly well because they have such heavy substance. They are very large when fully open, of perfect form and with spicy fragrance. A.A.R.S. award for 1949.
